## Who are JN Bentley?

JN Bentley Ltd is part of the global management, engineering and development consultancy Mott MacDonald, offering our clients full feasibility, design and construction services throughout the UK.

We are a rapidly expanding organisation with a current turnover of over £300 million generated from projects in the building and civil engineering sectors.

Top 100 undergraduate  
employers of 2019

## What you'll do: .....

Our busy plant team are responsible for keeping our sites moving. They manage our substantial fleet of plant and vehicles, an extensive external supply chain, and work closely with operations to help us deliver projects on time. As part of the Plant Team you will:

- Liaise with site managers and hire companies to move plant and machinery to and from sites.
- Form part of the plant hire service desk, being reactive to the needs and requirements of our live sites across the UK.
- Visit our construction sites and suppliers to see what life is like for them.
- Learn key negotiation skills and then implement them, engaging with various stakeholders to help us drive value.

I really enjoy the fast paced  
aspect of working in the  
plant team.

I always have challenging  
situations which help me  
push myself and my own  
understanding of the job  
role.
