

# Civil/Site Engineering. Graduate

## What you'll do:

### Quality

- Assist with monitoring the quality of the works in conjunction with the Test and Inspection Plan, maintaining as built records
- Co-ordinate site engineering control activities to satisfy contract programme requirements, assisting or carrying out setting out as necessary
- Ensure standard Company procedures are adopted in carrying out setting out operations as per the test and inspection, and that effective methods of communication are used in transmitting information to operatives and subcontractors
- Carry out 'as built' surveys on completed works

### Site Management

- Assist the Site Manager in the initial site set-up
- Support the Site Manager in maintaining and enforcing safety standards throughout the project
- Support the site team in planning ahead and monitoring outputs

## Who are JN Bentley?

JN Bentley Ltd is part of the global management, engineering and development consultancy Mott MacDonald, offering our clients full feasibility, design and construction services throughout the UK.

We are a rapidly expanding organisation with a current turnover of over £300 million generated from projects in the building and civil engineering sectors.
