

Preparing for Adulthood (Version 3 - April 2014)

Appendix 6 – Hertfordshire email invite to FE
colleagues to planning live de-briefing

Dear School and College Colleagues,

Professionals Seminar 25 March 2014 - Preparing for Adulthood - SEND Reforms

I am writing to invite you to take part in a SEND Pathfinder Preparing for Adulthood Professionals Seminar on the morning of 25 March 2014. Please note that there are **two place per school and college**.

The objective of the event is to gain your valuable input into the evaluation of the pilot activity which took place during the autumn term in preparing Education Health and Care Plans. Understanding what worked well, what needs to improve and developing partnership working, is important as we continue to prepare for the conversion of Learning Disability Assessments.

This event is designed to:

- Draw on professionals experience
- Gain feedback on the Planning Live events which took place during the autumn term, to achieve 20 completed Education, Health and Care Plans (which now sit alongside Statements).
- Understand the benefits to young people in their preparation for life beyond school
- Plan for the future, and how partnership engagement can support future activities.

The event will take place in the Stevenage & Technology Centre (Bessemer Drive, Stevenage, SG1 2DX) and will run from 9.30 to 12.30.

Please reply to Robert Higgin, Senior Support Officer, Services for Young People, Learning Difficulties and Disabilities, by emailing robert.higgin@hertfordshire.gov.uk.

I look forward to meeting you at the event.

Yours sincerely

Patricia Walker
